Don't Stop Tobacco

HOW TO CURE YOURSELF WITHOUT DRUGS.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco is an inveterate user becomes a stimulant that his system continually craves. "Baco-Cure" is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure. It is purely vegetable and is guaranteed perfectly harmless. You can use all the tobacco you want while taking "Baco-Cure." It will notify you when to stop. We give a written guarantee to cure permanently any case with three boxes, or refund the money with 10 per cent. interest. "Baco-Cure" is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from a cocaine as the day you took your first blow or smoke. Cured by Baco-Cure and gained thirty pounds.

From hundreds of testimonials, the original of which are on file and open to inspection, the following is presented. Clayton, Nevada Co., Ark., Jan. 28, '95. Eureka Chemical & Mfg. Co., La. Cross, Wis.—Gentlemen: For forty years I used tobacco in all its forms. For twenty-five years of that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but couldn't. I took various remedies, among others "No To-Bac," "The Indian Tobacco Substitute," "Double Chlorided Gold," etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Baco-Cure" and it has entirely cured me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains of body and mind. I can write a quire of paper upon my changed feelings and conditions. Yours respectfully, P. H. MARRIOTT.

Pastor C. P. Blum, Clayton, Ark. So I by all druggists at \$1.00 per box; three boxes, (thirty days' treatment), \$2.50 with iron-clad written guarantee, or sent direct upon receipt of price. Write for booklet and proofs. Eureka Chemical & Mfg. Co., La. Cross, Wis., and Boston, Mass. 37-1100.

LACK OF CURIOSITIES.

What Visitors to the Capitol Do when Congress Adjourns.

The young woman was using no time in getting her sight seeing tour started.

Approaching a Washington Star man who stood in the doorway of a store on Pennsylvania avenue, watching the crowd pass, she said: "Will you tell me where I can see the senate?" "It isn't in session." "Then, I guess I'll go see the house of representatives." "Is Senator Puffer here?" "No." "Or Senator Tillman?" "No."

"I don't see what they let them go away for, when so many visitors are coming. Well, anyway, can you tell me what can I do to get to the Zoo?" Silver dollars are not shipped abroad now as they were in 1873 simply because silver bullion is worth but little more than half as much as it was then. There is no gold in general circulation and the amount ordered to be held in reserve in the Treasury is only maintained by exchanging bonds for it. This is done in order to preserve the legal equality of the gold, silver and paper dollars and uphold the credit of the government. The silver dollars are a direct lien on gold coin in the Treasury, because, an act of Congress makes it the duty of the Secretary of the Treasury to maintain them on an equality with gold dollars.

Overcome by the Heat. Mr. Jerry Tilford, conductor on the local freight of the I. H. and St. L. was overcome by heat in the yards yesterday while switching and was prostrated. He was conveyed to the St. Francis Hotel, where Dr. Hale and Dr. Perdue were called in and succeeded in reviving him, and yesterday afternoon was regarded as out of danger, though still suffering from the shock, and will not be able to quit his room for a day or two. (Owenboro Messenger)

There are in this country many thousands of Democrats who remit money to Europe to assist relatives. Their \$10 is now worth its face on the other side, but under a free silver law it will be worth only \$5. This is a specimen of how free coinage will benefit the wage-earners.

Lawyers and bankers are the two proscribed classes in the Populist creed, and yet Bryan is a lawyer and Sewall a banker. Worse than that, Bryan is a corporate lawyer, being attorney for the Missouri Pacific railway, a part of the Gould system. Sewall, in addition to being a banker, is a railway director and president, all of them positions exceedingly offensive to our Populist friends.

One of our subscribers writes: "I cannot pay for my paper because I have so many debts to pay." A few others have written as though what one owes for a paper, which costs the

publishers money, is not a debt like that which one owes for groceries or dry goods. They remind us of a little story. At a revival meeting the evangelist requested every man who had paid his debts to stand up. "Sit down," every man in this meeting who has not paid his debts, stand up." One individual raised his evangelist. "My good man," said the evangelist, "have you not paid your debts?" "No," he said, "I have not paid them. I am the editor of a religious periodical, and nearly every member of this congregation owes me for my paper."—Midland, Chicago.

SNOW IN JULY.

Farmer Doherty Reports a Fall in Indiana.

Mr. Henry Doherty, a reputable farmer who lives a mile below New Albany, Ind., reports a phenomenal occurrence as happening on his farm on Wednesday afternoon shortly before 2 o'clock. At about that hour a storm came up, and the weather, which had been exceedingly hot during the morning, became much cooler. Mr. Doherty says at first a slight shower fell, followed by a fall of snow which lasted about a minute. This was followed by a heavy hail storm lasting about two minutes. Mr. Doherty was working in the field plowing potatoes. He was not surprised to see the hail falling, as this is not unusual in summer, but a fall of snow on a day when the thermometer was up to ninety three surprised him very much. The snow came down in heavy flakes, covering his clothing, but of course melted quickly.

The Discovery Saved His Life. Mr. G. Callonette, Druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tied all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at Williams & B. B. Drug Store.

And then Field Played the Violin. On Thursday evening last our young folks were treated to quite a pleasant time which came in the form of a surprise. After supper was over at the Walton house, Mr. B. L. Field, a traveling salesman, began to play the violin in the sitting room of the hotel. Soon a large crowd had gathered to hear the musician and after while some one suggested dancing. Mr. Field told them all right he would furnish the music. He was assisted by Messrs. Berry Jones, Lawrence Brown and Wes Taylor. By a little after nine o'clock nearly all the boys and girls in town had arrived and the dance was soon begun. Those present enjoyed themselves very much and at a late hour left for their respective homes. Mr. Heasley and wife received the hearty thanks of all for the kind hospitality extended. (Hart County News.)

Our Republican friends are rather slow in sending in campaign subscribers to THE REPUBLICAN. We have reduced the price to 25 cents for the campaign and furnishing articles from some of the best writers in the country on political issues. Now is the time to sow the good seed if you wish to reap a Republican victory in next November. Will you assist in the good work by sending in a list of campaign subscribers from your neighborhood?

Points for Advertisers.

It has been accurately demonstrated that 80 per cent. of the business firms in this country that fail are those that never advertise.

The fact that a paper's solicitor is a slick talker doesn't increase the value of the paper as an advertising medium.

An ad that induces people to think is sure to induce some to buy.

Advertising is the soul of business. It is that which meets the public be the public means the goods, and it fails to make a good impression the goods will never have a chance.

OLATON

We are well blessed with health. Plenty of rain and plenty to eat and no work to do, therefore we are sitting around unraveling the silver question. The boys seem to be well posted, but please excuse me, politics is not the theme, but something better. The writer came to Olaton thirteen years ago. The nearest Sunday School was Hartford, fifteen miles away. The writer, in company with others, went to work. Now we have several. The writer organized two this spring, the first at Falling Rock, Grayson county, with fifty scholars. They are doing well. Second at Antioch, with fifty-five scholars, E. P. Taylor, Superintendent, Miss Betta Pellix, assistant. Oscar Bond, Secretary. They made up a purse of \$25 and secured the services of Prof. Jno. W. Prizell, of Sugar Grove, Butler county, who taught us one of the best singing schools that we have ever witnessed. Thirteen years ago a gallop jug of the old boy would hardly make us a dram a piece, today a pint will go around and some left

to make camphor. Thirteen years ago we knew just how to break the Sabbath in more than one way. We could swear seven days in the week and not half try. Now, of course I don't mean everybody. Here are the little girls and boys, old women and ladies and gentlemen and a few fellows of Christ that don't come under that head, because no gentleman will take the name of God in vain. I don't know but two men in this neighborhood that will use profane language. Now, thirteen years ago you could come here and buy as much store goods on Sunday as you could on any other day in the week, but not so now. When Sunday comes our store door is closed. You see no one passing along the road with a load of goods on the Lord's day, but when Monday morning comes business opens up at a right lively rate. People coming in from every direction and the best of all is this: It a man comes to Olaton after anything he is sure to get it at a price so low that he goes home satisfied. Now dear reader draw a contrast between thirteen years ago and the present, then if you don't think that we are advancing just pay us a visit and see for yourself. MARION FARRIS.

Showing how and why. Mr. Bryan's speech at the Normal School exercises May 21, 1895, in Springfield, Mo., contained the following expression:

"The increase of coinage decrease the value and vice versa. We have now in the world \$4,000,000,000 in gold and \$1,000,000,000 in silver in round numbers. If doubled in volume and coined these would be twice as many dollars, but each dollar would buy less. It both the gold and silver doubled, the purchasing power would be one half of what it is now."

How does he reconcile that statement with the demand for free coinage of silver in unlimited quantities.

Let us appeal from "Philip drunk to Philip sober."

I heard of Dr. Bell's Pine Tar Honey for sale at the Store of Messrs. Gann, Burnett & Co's., Grantsburg, Ill., and meeting many commendations from different persons of its wonderful merits, I thought I would try a bottle. I have been seriously effected for 25 years with a cough and pains in my side and breast that were causing me a miserable life. I spent hundreds of dollars with doctors and for medicines, but everything failed until I tried this wonderful remedy. It beats the world and saved my life. I recommend Dr. Bell's Pine Tar Honey to everybody with weak lungs. It is a great success. J. B. ROSSETT, May 20, 1895, Grantsburg, Ill.

The Mt. Vernon Democrat gives an account of a couple that came across the river from Kentucky to that place for the purpose of getting married, and the young man got full of Posey county "bug juice" after he arrived. He procured his license and went to the hotel where the fair young damsel was stopping, and she seeing the condition he was in refused to marry him. She said there were too many fellows in the country and that she did not have to marry one that was drunk. They went back across the river unmarried. Not many girls would have done as this one did, but perhaps by this act she has saved herself from a many a heartache and many sorrowful days. She was indeed a brave girl.

Cancer Of the Face.

Mrs. Laura F. Mims, of Smithville, Ga., says: "A small pimple of a strawberry color appeared on my cheek; it soon began to grow rapidly, notwithstanding all efforts to check it. My eye became terribly inflamed, and was so swollen that for quite a while I could not see. The doctor said I had Cancer of the most malignant type, and after exhausting their efforts without doing me any good, they gave up the case as hopeless. When informed that my father had died from the same disease, they said I must die, as hereditary Cancer was incurable."

"At this crisis, I was advised to try S. S. S., and in a short while the Cancer began to discharge and continued to do so for three months, then it began to heal. I continued the medicine a while longer until the Cancer disappeared entirely. This was several years ago and there has been no return of the disease."

ESSEMY reads the hand that wants an office.

The weather during the last week has indulged in "scurrying."

The last administration of Mr. Cleveland will go down in history as the worst one yet experienced, up to date.

The Bryan Populists had a crown of thorns which they pressed down upon the brow of the "middle of the roaders."

The free silverites are now having their day. Sound money will come forward at the proper time, and the silver decision will vanish away as smoke.

The reason of our present "hard times" is that people allow themselves to be misled and deceived. Four years ago they were persuaded that the McKinley tariff laws should be repealed. They were repented, and the people have suffered. The same men who preached free trade are now advocating free silver. Will the people again be deceived by these false pretenses? Surely not. To avoid doing wrong, vote for McKinley and Hobart.

Politics makes strange bed fellows. Four years ago Democratic newspapers and orators could say nothing too severe against the Populists. They were abused and denounced unmercifully. Now they are combined together in an effort to elect Mr. Bryan. The esteemed Hartford Herald made itself conspicuous by its denunciations of Populism. Will the Herald please explain whether Democrats have turned Populists, or whether they are and have been one and the same?

Mr. R. G. Horn made the following prophetic prophecy regarding the Democratic theory of the tariff: "The humbug of this entire free trade theory will soon be a matter of demonstration to our people. I predict that the object lesson will be complete, convincing." Mr. Horn was right. The people have been convinced beyond a reasonable doubt that the Democratic idea of free trade, or a tariff for revenue, is most dangerous to our welfare; is vicious and destructive to business interests generally.

Thousands of free coinage of silver advocates of an increased demand for silver would enhance its value, which would be well taken, but, how would free coinage increase the demand? The government offers an inducement to bankers and business men throughout the country to use silver, to ship it to them at the expense of the government and yet millions of silver dollars are piled up in the United States treasury. There certainly can be no further demand for silver dollars while such conditions exist.

Five months after Bryan's election the holders of United States currency, other than gold, would rush to the treasury and sub-treasurers of the United States and demand redemption till the last gold dollar is passed out to the impatient holders, and when the first silver dollar is offered the holder of greenbacks, the news will be flashed over every wire in the world that the United States Government is bankrupt. Over \$100,000,000 of gold would go out of circulation in a moment. Our \$100,000,000 of silver currency in the same moment would drop to its intrinsic value or about \$20,000,000. Our \$20,000,000 of greenbacks, with silver for a redeemer, will be worth but \$17,500,000. Terrible calamities to overtake a country in a single day, but it is not night yet. Every industry in the country, save those upon which present existence absolutely depends, will shut down. Interest rates measured by the new standard of values will be doubled. The inflationary meetings in the South and West will be asked twice the present price for powder, but why prolong the list of disasters, the day after Bryan's election will never come.

"SIXTEEN TO ONE OR MORE?" We predict they'll "burst."

The school per capita in this State was \$2.85 last year and this year it is \$2.25. This is the loss of over \$500,000 for the Ohio county teachers. So much for the Republican "reform."

The writer of the above is grossly ignorant or else he procures a great deal on the ignorance of his readers. It was published this week thinking it would prejudice the teachers, now in session, against the Republican administration. The facts given are true. The per capita has been reduced, but the wonder is that it is as large as it is. In making the school appropriation for last year, Supl. Thompson was a candidate for re-election and was compelled to hold up the school fund, and in order to do so he drew on this year's money for over \$200,000, hence the decrease. Such gross misrepresentations as the Herald's notice is made for political purposes, but this one has fallen flat, and the teachers, regardless of politics, condemn such methods.

The present clamor for free coinage of silver, like the greenback craze of 20 years ago, arises from a lack of information upon the part of its advocates of what money really is. The policy of the United States of adding a considerable volume of greenbacks to the circulating medium has led many people to believe that the stamp of the Government gives to money its value. A more erroneous idea could not be conceived. Gold and silver were used to measure value and facilitate exchange among the ancient a long period before any government in the world ever conceived the idea of placing a stamp upon them. In all transactions the metals had to be weighed just as large accounts are settled now. But as the commerce of the world increased in volume the people felt the need of a more expeditious way of settling their balances, and then came the precious ones, and governments were induced to assay and weigh the metals and stamp the weight and fineness upon coins of convenient shape and size. There was no thought of the government imparting value to the coin, but the sole purpose was to save the people the trouble of weighing the metals and to protect them from the counterfeiters. It is true governments are larger and stronger now than then, but inventions have shortened the process of supplying the needs of the human family. Science has solved many difficult problems, but to make something out of nothing still remains among the secrets of the Omnipotent. From time to time governments have changed the legal ratio between gold and silver to correspond with their actual ratio, but to fix an arbitrary ratio irrespective of commercial value was left to the Populists of the last days of the nineteenth century. How unfortunate that Teller and Tilden were not in the United States Senate in the early part of this century, when Congress was changing the legal ratio to correspond with the commercial ratio of the two metals. If Congress could not, by legislation, maintain the parity of gold and silver then with only two or three cents difference in commercial value, how can it do it now with fifty cents difference?

Did it? Will it? The Democratic party declared in 1892 that a protective tariff was unconstitutional. If there is anything that will make an old fashioned, rock ribbed, thorough bred Democrat stand on his hind legs and howl it is the talismanic word "unconstitutional." So the Democratic party was successful in 1892 on the argument that protection was unconstitutional. Did the Democratic party on coming into power in 1892 proceed to remove the "unconstitutional" protective tariff? Did it? Well, hardly. It let the unconstitutional protective tariff severely alone for over a year. Then it invited the protected monopolies of the country to send representatives to Washington to tell the Democratic congress how much unconstitutional protection they wanted. Then they went to work and framed a tariff law that contained more "unconstitutional" protection than the Republican war tariff. That is the way in which the Democratic party fulfilled its promise of 1892.

The Democratic party goes into the campaign of '96 pledged to the free coinage of silver. If it is successful at the polls in November will it enact a free coinage law? Will it? Read the answer in the party's record on the tariff question.

THE HAZARDS OF INFANT LIFE. Mr. constant care which the over-tired mother gives her infant, ever handling and holding it, picking it up in her arms as soon as it wakes, constantly talking and singing to it, is calculated to excite the child and keep it in a continual state of nervous strain. The blessed quiet which brain-weary, nerve-exhausted grown people long for is baby's right, and the wise mother will never allow anything to rob her child of this health-giving privilege. Don't fuss nor play roughly with a baby. Babies should be handled and moved about as little as possible. The common practice of keeping them constantly in motion when awake is fruitful of trouble in many ways, and especially is the evening romp, when baby in high glee is tossed to the ceiling by its fond papa and inquisitive practice. It is small wonder if the little mite demand another romp at the incoherent hour of midnight, and its parents have only their own indiscretion to blame for this inconvenient wakefulness. (From "Summer Care of Babies," in Demorest's Magazine for August.)

"A Stitch in Time."—A dose of Ayer's Pills has saved many a fit of sickness; but when a remedy does not happen to be at hand, slight ailments are liable to be neglected, and the result, frequently, is serious illness; therefore always be supplied with Ayer's Pills.

What's in the Sack? An exchange tells a story of a boy who went to market with a sack of rabbits and lingered around town all day. When asked by his mother why he had not sold the rabbits, he said no one had asked what was in the sack. How many merchants are like this boy? They have plenty of goods for sale, but fail to tell the people "what is in the sack." If you expect to sell goods in this day and age of the world you must open your sack and keep showing the merits of your stock in trade. (L. E. C.)

STREET AND WORK. Mr. STEPHENS, Ky., July 20, 1896. "We have found Hood's Sarsaparilla to be a most excellent tonic. My daughter and myself have both taken it. My daughter does not now complain of feeling tired when she arises in the morning as she formerly did. We have also taken Hood's Pills with good results." Mrs. PRICE CALK.

Hood's Pills cure indigestion, biliousness. Health of this place is good. Dr. G. L. Evers is thinking of locating at Rensler. He is a good young doctor and deserves a good location.

We have a great deal of saw logging and the works going on at this place. Last Saturday was pay day and the town was full of people. Ceralvo is solid for the gold standard and that means McKinley for President and J. W. Lewis for Congress. If other parts of the county is as solid for Lewis as this community is he will carry Ohio county 530 majority. Good success for THE REPUBLICANS and Martin, of Cronwell, for Sheriff in 1897. J. W. THE SQUARE TITING. The sheriff was talking politics when a constable drove up with a man in a buggy. "Ma-jah, this yere is Jim Howland, who has been sentenced to jail for ninety days by the court over at Marion," said the constable. "Jim Howland, eh?" queried the sheriff. "What's the sentence for?" "Stealin' two pigs," said the prisoner. "Waal, yo' er sent to jail. Look yere, Jim Howland, what sort of a man might yo' be on the average?" "Partly squar', kurnel—partly squar'." "Because," resumed the official, "one end of the jail has caved out, the roof has sunk in, and the niggers has ripped out all the floors. It's a mighty lonesome place to put a white man in, and I don't reckon he'd stay

but over two minutes. I don't want to be bothered goin' around there two or three times a day, and I don't want to put yo' to the trouble of breakin' out."

"I see," mused the prisoner. "And so yo'd better pass yo' word not to get onery and skip out, and yo' kin hang around town, and come up to the house for meals."

"I'd rather be in jail, kurnel. Fact is, I've allus wanted to be sent to jail, but somethin' has allus happened to prevent."

"But consider the circumstances, Jim. Yo' hain't nuthin' agin me, hev yo'?"

"Oh no; but it 'll disappint the ole woman and children if I'm not put behind the bars."

"Thar hain't n blamed har or boll or lock about the shanty, Jim."

"Couldn't I be chained to the wall?"

"Ye-s, yo' could, but it would be bad fur ho'r health. Yo'd hev chills inside of three days. They'll hev the new jail done next year, and then, if yo' feel that yo' must go to jail, I'll take yo, in fur thirty days."

"Waal," said Jim, "I don't want to be onery to nobody, and as yo' seem to want to do the rapin' thing, I'll agree to hang around town, but remember, kurnel, that the next time I'm sent to jail I'm either goin' thar or rip the cotton out of one hull side of this country!"

And Jim got down, and was soon seated on the platform, telling the crowd of idlers what ailed the county and the remedy for it. (From the "Editor's Drawer," in Harper's Magazine for August.)

It is actual merit that has given Hood's Sarsaparilla the first place among medicines. It is the One True Blood Purifier and nerve tonic.

MISS JETA RAGLAND, John Ragland and Mrs. W. H. Ragland are on the sick list, besides many cases of whooping cough among the children.

Rosine had quite a lively game of base ball Sunday evening with Spring Lick. The game lasted about 2 hours and the scores stood 43 to 19 in favor of Rosine. The Rosine boys attribute their success in a great measure to the fine catching done by Joe Pierce. The Spring Lick boys seem to think it was Weddell's curve that defeated them.

A Life-Long Democrat. The following special appeared in Tuesday's Courier Journal from this place:

HARTFORD, Ky., July 23.—The following statement was made by the Rev. J. S. Coleman, D. D., a life-long Democrat, and one of the most widely known men in the Green silver country.

"I make no pretension to being a politician, but determine my course in such matters by my own conscientious convictions of right and duty as a citizen. Having been a life-long Democrat, never doubting that the principles of Democracy are vital to the perpetuity of our American form of government, I do not hesitate to say that I conceive that we have lost all that is vital in Democracy in the Chicago platform; and, therefore, I am favorable to a sound-money platform and a sound money ticket."

It is often difficult to convince people their blood is impure, until dreadful eruptions, abscesses, boils, eruptions or skin affections, are painful proof of the fact. It is wisdom to know when there is any indication of

blood, to take Hood's Sarsaparilla, and prevent such eruptions and suffering. "I had a dreadful carbuncle abscess, red, fiery, fierce and sore. The doctor attended me over seven weeks. When the abscess broke the pain was terrible, and I thought I should not live through it. I heard and read so much about Hood's Sarsaparilla, that I decided to take it, and my husband, who was suffering with boils, took it also. It soon purified our

SIXTEEN TO ONE LOGIC.

Latent Arguments of the Free Silver Fanatics. Mexico has free silver. The Mexican people are very poor. Therefore, we want free silver.

Wages in this country are too low. Wages are higher here and in all the gold standard countries than in China, India and other silver using nations. Therefore, we want free silver.

We believe in the double standard under which both metals will be used to measure values. Free coinage at sixteen to one will drive out all our gold and put our currency on the silver basis. Therefore, we want free silver.

We fear an honest dollar is as small as just to all the people. The adoption of the silver standard will enable debtors to repudiate one-half of their obligations. Therefore, we want free silver.

Gold dollars are too scarce and dear to serve as money for the people. Under free coinage a silver dollar will always be worth just as much as a gold dollar. Therefore, we want free silver.

The government can make 50 cents worth of metal worth 100 cents in gold by stamping it. Therefore, we want free coinage such a dollar would buy only half as much goods as a gold dollar—that is, it would be worth only half as much. Therefore, we want free silver.

The prosperity of the American people depends on the amount of wealth produced and the fairness with which it is distributed among the producers. Measuring products in silver instead of gold would neither create any more wealth nor distribute it more justly. Therefore, we want free silver.

The country is suffering because there is not half enough money to do business with. As soon as a free-coinage law is passed our \$500,000,000 in gold will all be withdrawn, and we shall lose all that amount from circulation. Therefore, we want free silver.

There is something wrong with the country somehow, though we don't know what it is nor how to cure it. But everything will come all right if a lot of cheap-money agitators are elected to congress, so now and everlastingly we want free silver. Whidden Graham.

Recently Many People Have Money on the Loose. It is really a race between the interests of the debtors and the creditors of this country. Contrary to the general supposition, there are not more debtors than creditors, but four or five times as many creditors as debtors. Therefore, we want free silver.

The Courier-Journal Speaks Its Mind. Tuesday after the Kentucky primaries the Louisville Courier-Journal said editorially:

"They (the democrats) have repudiated the only president the democratic party has elected and sent for 50 cents. They have repudiated the most distinguished of Kentucky's living sons and the greatest democratic intellect in the United States. They have repudiated the fathers of the party whose name and organization they claim, have proclaimed Jefferson an ignorant, Jackson a conspirator, Benton a knave and Cleveland a traitor. For the first time handed down through 100 years of glorious party history they have substituted a full rejected by every intelligent civilization on the globe, and for the representative of that faith they have substituted such a specimen of populism as Stewart, such exponents of

Liquid Electricity Testimonials.
My wife suffered for twelve years with sour stomach and indigestion. I tried everything I heard of without getting relief. By the use of one bottle of Liquid Electricity she was not only relieved, but entirely cured. I found it effective for cure of toothache also. HUGH ROACH, McHenry, Ky.

I stepped on a rusty nail and run it almost through my foot, causing a severe, painful and dangerous wound. After trying everything that is usually used and getting no relief, I purchased a bottle of Liquid Electricity. After applying it a few times I was relieved of pain and swelling began to reduce and in a short time was able to walk. I earnestly recommend it as the best remedy I ever used. MRS. MARY A. WILSON, McHenry, Ky.

On night of June 26th, 1896, I was bitten by a very poisonous spider. After using several remedies without any relief I purchased a fifty-cent bottle of Liquid Electricity; and after a few applications was greatly relieved. An accident it was instrumental in saving my life. I cheerfully recommend it to suffering humanity as a valuable family medicine. DUNCAN PENMAN, McHenry, Ky.

I have healed several scalds and burns very rapidly by the use of Liquid Electricity. I think it the best healing remedy I ever used. WILLIAM CHRISTIAN, Blacksmith, McHenry, Ky.

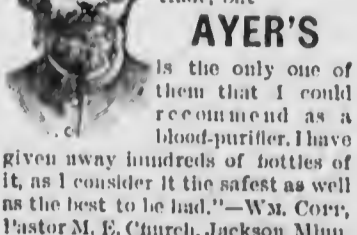

I have used Liquid Electricity for cuts, cramps, colic, etc., and find it to be a rapid healer, and reliable remedy. MRS. ANNIE DUNCAN, McHenry, Ky.

I am authorized to appoint sub-agents; and am prepared to furnish same with this wonderful remedy. Correspondence solicited. D. S. DUNCAN, Gen. Agt., 52 St. McHenry, Ky.

It would be a great convenience to the reading people of Hartford if we could get the Louisville papers here early on Sunday mornings. As it is we have to wait until in the afternoon and the papers are lying at Beaver Dam all the while. It is the duty of some one to look into this matter. Who will do it?

The Only One To Stand the Test.

Rev. William Corp, whose father was a physician for over fifty years, in New Jersey, and who himself spent many years preparing for the practice of medicine, but subsequently entered the ministry of the M. E. Church, writes: "I am glad to testify that I have had analyzed all the various preparations known in the trade, but

AYER'S is the only one of them that I could recommend as a blood-purifier. I have given away hundreds of bottles of it, as I consider it the safest as well as the best to be had."—Wm. Corp, Pastor M. E. Church, Jackson, Minn.

INSTITUTE.

A Large Number in Attendance This Week.

An interesting Session Throughout.

The Ohio County Teachers' Institute met in College Hall Monday morning and the house was called to order by Supt. Shultz, and devotional exercises were conducted by Rev. Jo. B. Rogers. The welcome address was delivered by Rowan Holbrook and Prof. Wm. Foster responded on behalf of the teachers.

Chapman and L. W. Godsey was elected Secretary, Miss Mattie Taylor, assistant Secretary. Prof. W. E. Lumley, of Pulaski, Tenn., was on hand as Instructor. He is a fine educator and the teachers are well pleased with his work. A motion was made and carried to move the Institute to the Court House.

Spelling and its importance was discussed in the afternoon by L. W. Godsey, J. H. Barnes and others, after which several subjects were taken up by the teachers and thoroughly discussed. Adjourned to meet Tuesday Morning.

House was called to order by Supt. Shultz and Rev. J. S. Chandler conducted devotional exercises, and after singing by the choir the program was taken up for the day. The different subjects which had been assigned were handled in a masterly manner by the teachers, which showed clearly that they were well up on the science and arts of teaching and in their work. Every subject brought up for discussion was ably handled.

Tuesday night Prof. Lumley delivered quite an able address to the teachers, taking for his subject: "The Foundation and Preparation of the Earth as the Abode of Man." His address has been highly complimentary.

Wednesday morning the Institute again convened in Court Hall with a large number of teachers in attendance, with an interesting program for the day. Devotional exercises were conducted by Rev. J. P. Hicks and minutes of preceding meeting read and approved. The program was taken up in an able manner by Prof. Lumley who explained grading. A great deal of interest was manifested and a great many questions were asked on the subject, which showed that the teachers were thoroughly convinced of the importance of grading in their schools.

After recess Prof. Wm. Foster talked on the subject of psychological terms, followed by Jno. B. Taylor upon Senses. In the afternoon Prof. Lumley gave a talk upon the Teacher as a factor in civilization which was well received.

Hon. H. H. Smith, of Hardin county, was next introduced and gave an eloquent talk. He was here in the interest of his race for the Democratic nomination for Congress.

Yesterday morning devotional exercises were conducted by Rev. Jo. B. Rogers, singing by the choir and the discussions of the various subjects begun.

Master Charlie Griffin fell from a wagon last Monday morning while returning from Beaver Dam and caught his foot in a wheel and was pretty badly bruised up. He is able to be out on crutches now.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became a Man, she clung to Castoria. When she had Children, she gave them Castoria.

Great Meeting.
Last week we announced the contemplated reunion of Old Buck Creek Church for the purpose of giving her old pastor, Dr. J. S. Coleman, a grand reception. Last Sunday this meeting materialized, beyond the most sanguine expectations of its most zealous supporters. But for the excessive high temperature which was high up in the ninety's, the day was all that could be desired.

At an early hour the swarming multitude began arriving by every mode of conveyance known to modern travel from the busily faru wagon to the flying railroad express.

Soon the grounds were crowded with vehicles, horses and a melting mass of humanity, which packed the new church edifice to its utmost capacity, with an eager crowd left standing at the doors and windows, all gazing to catch a glimpse or hear a word from the lips of the old man of God as he arose in the pulpit to assume the responsibilities of the great occasion.

Not one-third of those in attendance could get within either hearing or even seeing distance. The crowd was variously estimated at from 1,500 to 2,000 souls, all exhibiting the ut-

most good humor, inasmuch as not an accident occurred to mar the pleasure of the occasion, save that a few individuals were overcome and exhausted by the excessive heat of the weather.

Dr. Coleman announced his subject: "The Certainty of the Kingdom of Christ"—Text, Daniel 7:13-14 and for more than an hour he held the large crowd as still as if they were all comfortable. Finding himself greatly exhausted he abruptly closed, when the session began by hand-shaking and congratulations that brought tears to many, many eyes. After which a most sumptuous dinner on which all this multitude fed to satiety was spread for all.

Taking all in all it was truly an ovation to Dr. Coleman, of which any man could justly be proud, yet one he justly merited by virtue of many long years of remarkable successful pastoral labors, extending through nearly a quarter of a century, during which time hundreds were converted and added to Old Buck Creek Church. This occasion was a most becoming one and will be long remembered.

BEAVER DAM.

Rev. Wilson filled his regular appointment here Sunday.

The ice cream supper given by the Christian Endeavor on last Thursday evening was a quiet yet an enjoyable affair. Sufficient means were made to purchase literature and that was their sole aim. 40 YEARS THE STANDARD.

ELLENDALE.

The big Kentucky Fair begins this year on July 28th and ends August 1st. Five days devoted to instruction, amusement and recreation.

The management are making superhuman efforts to make it the leading fair of the State. There will be improvements and rare attractions in all departments. The gorgeous floral field of '95 will be eclipsed by the splendor of this year. A \$110 Pack-ard organ will be given to the best display of ladies' work in the hall and \$25.00 in gold to the best display of each county represented by at least three displays. The best article of each class will also receive a liberal premium. The Poultry Exhibit promises to make the poultry show second to none in the State. Premiums liberal and classification full. New regulation coops are used and poultry judged according to the American standard of perfection by T. D. Heinich, the expert judge of Jacksonville, Ill.

The race track is in most excellent condition, being several seconds faster than last year. It is without doubt one of the fastest half mile tracks in the State, and on it will be fine running, trotting and pacing races, men's, children's and women's bicycle races, mule, hound and goat races and foot and potato races.

Accommodations for 10,000 people that will be in daily attendance will be ample, luxurious and cheap. Beside the big hotel there will be a village of tents—small tents, family tents and tents big enough to sleep a Sunday School excursion.

Handsome premiums given to couples marrying on the grounds on Wednesday and Thursday.

Excursion rates on all railroads and rivers of middle and Western Kentucky.

Admission 25c. Tuesday the 28th being ladies' day, ladies and children under 10 free. W. F. RAVER, President Ellendale Fair Co.

For further information and premium lists address the Secretary. Privileges sold to highest and best bidder. Bids close July 10th 1896.

R. T. SMITH, Ellendale, near Curdsville, Ky.

This testimonial is unsolicited and for the benefit of humanity. My daughter has been subject to severe colds and croup and often taken with violent coughing spells at night. Dr. Bell's Pine Tar Honey is the only preparation I have found that will relieve her. I think it is as necessary in the household as a life preserver on a steamboat. Res'y.
